If you have an organization account and you would like to add a team member follow these steps.

1. Log in to your Docker Hub (https://hub.docker.com/) account.
2. Click on "Organizations" in the top nav bar.
3. Select the organization that you would like to add a member too.
4. Select the team you'd like the user to be a part of from the paginated list displayed.
5. Click the blue **add user** button.
6. Type in the Docker ID or email address for the user you would like to add.
